## Projects

### Hoy es Diseño / Student Project

Create the 16th edition of "Hoy es Diseño", one of the biggest design events in Colombia | August 2015 - November 2015

- Collaborated with a team of 30+ members
- Participated in brainstorming and efficient application of the solutions
- Contributed to the open and well-developed communication system
- Created the visual identity and branding of the event, designed and developed the official website of the event
- Accomplished with the team the attendance of 1200+ people - one of the highest attendance rates in the history of the event

### Hotel UX / Freelance Project

Research and analyze the needs of hotel goers in Colombia to design a website. | May 2017

- Interviewed several stakeholders of the project to get an insight of their needs, wishes, and desires
  - Researched state-of-the-art of the field and designed a strategy that is closely aligned the needs of the client and the users
  - Accomplished the approval of the proposal which resulted in the current development of the product with the deployment scheduled before the end of 2017
-
